Summary

A Computer Science undergraduate specializing in Full-Stack Web Development with hands-on experience building MERN stack applications, real-time platforms, and scalable REST APIs.

Education

Indian Institute of Information Technology, Sri City

Aug 2023 – Present

B.Tech in Computer Science and Engineering, Andhra Pradesh, India

CGPA: **7.29 / 10.0**

Experience

Frontend Developer Intern

Svamatia Technologies, Hyderabad, India

Jan 2025 – Jun 2025

- Developed the frontend interface for SAAMS, a cross-platform attendance management system, using Electron and React.
- Built dynamic and responsive UI components with Material UI and TypeScript, improving user workflow and achieving a 25% increase in user satisfaction scores.
- Integrated secure JWT-based authentication at the frontend, ensuring 100% of API interactions occurred through protected routes.

Projects

HappyTails

GitHub

Tech Stack: React / Node.js / Express.js / MongoDB / Redis / Stripe / Docker / Swagger

- Engineered a full-stack MERN e-commerce and event platform with role-based React portals (admin, vendor, customer), fine-grained RBAC, JWT authentication, and Stripe payment integration for secure transactions.
- Boosted performance by implementing Redis caching for sessions and frequently accessed data, cutting average API response time by 35%, and documented all REST endpoints with Swagger (OpenAPI 3.0), reducing integration errors by 40%.
- Spearheaded DevOps by containerizing the application with Docker and orchestrating automated CI/CD pipelines for zero-downtime deployments.

Smart Outpass Management System

GitHub

Tech Stack: React / Node.js / Express.js / MongoDB / JWT / Nodemailer

- Developed a full-stack web application to automate hostel outpass workflows for students, wardens, and security personnel.
- Implemented JWT-based authentication, role-based access control, QR code verification, and automated email notifications to streamline approval processes.

Technical Skills

Languages: Python, JavaScript, Java, C, SQL, MATLAB

Frontend: React, Electron, Material UI, Tailwind CSS, TypeScript

Backend: Node.js, Express.js, REST APIs, WebSocket, Socket.io

Databases: MongoDB, Redis

DevOps / Tools: Docker, CI/CD Pipelines, Git, Swagger (OpenAPI), VS Code

Core Concepts: Data Structures, Algorithms, System Design, OOP, Role-Based Access Control (RBAC)

Leadership & Activities

Lead – Portfolio Management, Valiara Finance Club, IIIT Sri City

Led student workshops on financial literacy; collaborated with executive teams to plan and execute events on portfolio management and market analysis for 100+ participants.

Stalls Co-Lead, Abhisarga 2025, IIIT Sri City

Directed stall allocations and vendor coordination for 1,500+ attendees; reduced vendor onboarding time by 30% through improved scheduling and process streamlining.
